

Special Educational Needs (SEN)

Areas of Need

The kinds of SEN that are provided for at Friday Bridge Primary School are those set out in the Code of Practice (2014):

- Communication and Interaction
- Cognition and Learning
- Social, emotional and Mental Health (including behavioural issues)
- Sensory and / or physical needs.

In school, we use support and teaching staff, appropriate resources, and procedures to offer high quality provision that will meet the needs of all children in our school community. We make reasonable adjustments for any child with additional, special educational or medical needs, including any child with disabilities.
