

Well, we have made a fabulous start in the 2021-2022 Robins Class!
I can already tell that these children are going to become a great team.
Here is a little peep into our first full week back:

We explored Fenland artefacts from a Wisbech Museum
Topic box

We had a visit from the Froglife team and it was a super
session all about how vital pollinators are for the food
we need!

We've been exploring maths resources and the value of numbers.

Some of us used the eel trap in the topic box
to try to construct one from our connecting
shapes!

We have been exploring our Purple Mash
Site further too.

This is just a tiny snippet for you.
Please, keep checking our class page for info and celebrations of our
learning in Robins.
